THE GIN

15ml 30ml

Blue Gin

\$13 \$24.5

A LITTLE FAIRY TALE

In our opinion, the production of Premium-Gin needs passion, attention to detail and the desire for quality. Our journey begins with wheat. More precisely with the wheat variety "Mulan". It grows on fields in Upper Austria and is a beautiful raw material to start our distillate because of the region where it is found. The distillation takes place in a traditional, small copper pot still. Due to the low temperature, this is the most gentle method for distilling eau de vie.

After the pot-still-distillation to the so-called "fine distillate", the botanicals come into play. Different, meticulously chosen botanicals from all over the world are incorporated by "maceration". This wonderful smelling essence is then allowed to rest for a while and after that, it is distilled for the third and final time. The end result is Gin. Better said **BLUE GIN** and the journey continues...

Sloe berry Gin

\$10 \$17

This Gin attracts attention because of its characteristic red color. The name giving element is the sloe berry, which is part of the rose family and has a very high vitamin C content. The classical Blue Gin is diluted with the juice of organic sloe berries. "After the maceration and carefully compression the unbelievable complex aromatic is shown.

THE WHISKY

15ml 30ml

Reisetbauer Single Malt Whisky 12 Years

\$16 \$31

This Whisky is distilled from malted barley from the own fields in upper Austria. It matured in a combination of hand-selected Chardonnay and Trockenbeerenauslese oak casks for minimum 12 years.

These casks are hand-selected by master-distiller Hans Reisetbauer, from the well-known Austrian winemakers Heinz Velich and Gerhard Kracher.
